DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of Species I in the reply filed on 11/19/07 is acknowledged. The traversal is on the ground(s) that the species are not mutually exclusive. This is not found persuasive because the invention of species I only requires the first power source circuit board to be downstream the second powered source circuit board in an air passage direction through the main casing, while the invention of Species II makes no reference to the board's location relative air flow or second board. Therefore, it is believed that Species II mutual excludes location features of the power source circuit board, rendering the claims patentably distinct.

The requirement is still deemed proper and is therefore made FINAL.

This application is in condition for allowance except for the presence of claims 15-25 directed to an invention non-elected with traverse in the reply filed on 11/19/07. Applicant is given TWO MONTHS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
